

BINGHAMTON-ONEONTA
BUILDING & CONSTRUCTION TRADES COUNCIL

November 2, 2018

Binghamton-Oneonta Building and Construction Trades Council is pleased to announce their full endorsement for the Republican candidate of the New York State Senate District 52, Fred Akshar.

Fred has shown in the past that he is a true advocate for labor, communities and for all working persons in general. He has pledged to continue his support of skilled local labor on construction projects in the district thereby circulating tax dollars being spent on these projects back into the community. Fred has also pledged to support the use of certified apprenticeship programs in order to provide successful, long-term career paths for local people. He also supports having representatives from the local Building Trades Council in conversations with potential developers who are planning construction projects within the district.

Fred is a dedicated, caring and hardworking candidate who has stood up for what is right for the people of New York State and has earned our support on November 6th.

Sincerely,

Robert Aikens
President
Binghamton-Oneonta Building and Construction Trades Council
